POST-FIELD PROTOCOL TEMPLATE

Name	e: Date: Fie	ld date(s):
that ar	to use this template: for each field outing, make are unnecessary (according to the "if" statements), ler of the table below. For example, see here	
If dete	tectors were deployed:	
	Use deployed detector # to look up new deployr Spreadsheet (D.S.)	ment number on Deployment
	Fill in deployment spreadsheet row (location cod	le, start date, notes)
	Check that SD card code on field protocol match	nes code on deployment spreadsheet
If used	ed detectors were brought back (ignore for unu	sed detectors)
	Use location code to look up old deployment nu	mber on D.S.
	Fill in old deployment spreadsheet row (end date	e, notes)
	Add any important notes or discrepancie	s to "brain dump"
	Check that recorder number on Field Protocol m	atches Deployment Sheet
	☐ Lost recorders: mark "lost" on DETECTO	PRS sheet
Alway	nys:	
	Place check mark on field protocol	
	Double check all actions & initial in the table below	ow

New deployment number:	Old deployment number:	Insert action	Insert action	Check mark on field protocol?	Double-check all actions & initial
